

Sample Project Brief

Project Name: Internal Knowledge Portal

Owner: Product Team

Created On: 28/09/2026

Status: Draft

Summary

This document is used to test general PDF text extraction.

The goal is to upload a PDF and read its complete plain text without any special tender logic.

Any command, keyword, or requirement can be applied later to the extracted text.

Key Notes:

1. Keep pages simple and readable.
2. Use clear headings and short sections.
3. Make sure content is searchable and easy to copy.
4. Contact: team@example.com
